

Import CSV - Excel VBA

<https://stackoverflow.com/questions/12197274/is-there-a-way-to-import-data-from-csv-to-active-excel-sheet>

```
Public Sub Import()  
  
Dim ws As Worksheet, strFile As String  
  
Set ws = ActiveWorkbook.ActiveSheet  
  
strFile = Application.GetOpenFilename("Text Files (*.csv),*.csv", , "Please select text file...")  
  
With ws.QueryTables.Add(Connection:="TEXT;" & strFile, Destination:=ws.Range("A1"))  
    .TextFileParseType = xlDelimited  
    .TextFileCommaDelimiter = True  
    .Refresh  
End With  
  
End Sub
```
