

Skip Try It before Installing Screen - Ubuntu Desktop 14.04

To do this, use ISO Master to replace

```
/isolinux/isolinux.cfg
```

New isolinux.cfg:

```
default live
label live
menu label Boot Straight to Live
kernel /casper/vmlinuz.efi
append file=/cdrom/preseed/ubuntu.seed boot=casper initrd=/casper/initrd.lz noprompt noeject toram quiet splash
--
```
