

# Set up NFS-Client on CentOS 7

This is just an example, read about the mount options to tailor to your needs.

**Replace:**

```
sudo yum install -y nfs-utils nfs-utils-lib
```

```
sudo mkdir /mnt/disks
sudo chmod 777 /mnt/disks
sudo sh -c 'echo "    /mnt/disks    nfs    auto 0 0" >> /etc/fstab'
sudo mount -a
```
