

Embed VBA in Batch/CMD

```
<!-- : Begin batch script
@echo off
@cls
::Comments in Batch Script use "::"
::Insert Batch Below and Call Via "%~f0?.wsf"
cscript //nologo "%~f0?.wsf"
exit /b
----- Begin wsf script --->
<job><script language="VBScript">
'Comments in VBS use ' AKA apostrophe
'Insert VBS Script Here
</script></job>
```
