

# Write to Existing Text File with VBA

<https://analysistabs.com/vba/append-existing-text-file-excel-macros-examples-codes/>

```
Sub VBA_to_append_existing_text_file()  
  Dim strFile_Path As String  
  strFile_Path = "C:\temp\test.txt" 'Change as per your test folder and exiting file path to append it.  
  Open strFile_Path For Append As #1  
  Write #1, "This is my sample text"  
  Close #1  
End Sub
```
