

RetroArch with Steam using ICE

Note: Everything is installed on a network mounted share mapped to G:

My Folder Structure:

```
G:\Emulators\Retroarch\RetroArch\retroarch.exe
G:\SteamLibrary\Ice\Ice.exe
G:\Emulators\ROMs\{SNES,NES,N64,Wii,GameCube}
C:\Program Files (x86)\Steam\userdata\
C:\Users\*****\AppData\Local\Scott Rice\Ice
```

Big thanks to this article!

Steps:

1. [Get RetroArch Working](#)
2. [Get Ice Working to bridge RetroArch and Steam](#)
3. Launch Steam and Game!
