

Create RAID-Z Pool with 3 Drives

Make sure to truncate the size of your other disks!

```
truncate -s 5T ~/5tb.raw
zpool create -f raid-z raidz /dev/sde /dev/sdd /dev/sdc /root/5tb.raw -o ashift=12
zpool offline raid-z /root/5tb.raw
zpool export raid-z
zpool import -d /dev/disk/by-id/ raid-z
zpool status
zfs set mountpoint=/mnt/zfs/raid-z raid-z
```
