

# Convert Column Number to Letter - Excel VBA

## Number to Letter:

```
Function Col_Letter(lngCol As Long) As String
Dim vArr
vArr = Split(Cells(1, lngCol).Address(True, False), "$")
Col_Letter = vArr(0)
End Function

Sub Range_End_Method()
Dim lCol As Long
lCol = Cells(1, Columns.Count).End(xlToLeft).Column

MsgBox "Column Letter" & Col_Letter(lCol)

End Sub
```

## Letter to Number:

```
Sub Sample()
ColName = "C"
Debug.Print Range(ColName & 1).Column
End Sub
```
