

XYMon-Client Compiled Deb

This is where I will keep Compiled Deb's + init.d scripts in zips + install links. If you want you can [Compile Deb Yourself](#).

```
sudo su
```

```
apt-get update
apt-get install -y wget unzip
cd ~
rm xymon-client*.deb
wget https://www.freesoftwaresevers.com/wiki/files/3965361/10649781/1/1485784808484/XYMon_Client_4.3.27.zip
unzip XYMon*.zip

cd XYMon-Client*
```

[XYMon_Client_4.3.27.zip](#)

```
sudo cp xymon-client /etc/init.d/
sudo chmod a+x /etc/init.d/xymon-client

sudo update-rc.d xymon-client defaults
```

Install Client :

```
dpkg -i xymon-client*.deb
```

```
sudo sed -i 's/\(^XYMSRV=\).*\/\XYMSRV="192.168.1.255"\/' /etc/xymon/xymonclient.cfg
```

```
sudo sed -i 's/\(^CLIENTHOSTNAME=\).*\/\CLIENTHOSTNAME="HOSTNAME4-HOSTS.CFG"\/' /etc/default/xymon-client
```

```
sudo service xymon-client restart
```
